What kinds of animals see Dr. Shimizu?

Dog, cat, bird, rabbit, ferret, squirrel, marmot, turtle, prairie dog etc.

What kinds of facilities Shimizu Animal Hospital is equipped with?

What is the policy of Shimizu Animal Hospital?

Diagnosis and Treatments by doctor & Nursing and Care by family at home...

Pets go home after surgery as soon as possible in order to be free from stress and to relax with family. In case family notice any small change of pet's condition, we accept call any time. We think not only diagnosis and treatments but also consultation about diet, training and preventive treatments are our important responsibilities.
